

Remote Work and Equipment Stipend FAQ

Reference No. HR-FAQ-220 · Updated February 2026 · Owner: Workplace Experience & IT Security

Hybrid and Remote Work

Q: How many days per week can I work from home?

A: Hybrid employees are expected in the office 3 days per week (Tuesday to Thursday by default) and may work from home on the other 2 days. Fully remote roles are designated in the job offer and approved by the department head.

Q: Can I work from a different city in my home country?

A: Yes. Domestic temporary remote work from any location in your home country is allowed with manager approval, as long as you remain reachable during your core working hours.

Work From Anywhere (International)

Q: Can I work remotely from another country?

A: Yes, under the Work From Anywhere (WFA) program. Eligible employees may work from outside their home country for **up to 20 workdays per calendar year**. Days do not need to be consecutive. Weekends and company holidays do not count toward the 20-day limit.

Q: What approvals do I need for international WFA?

A: You need (1) your manager's approval and (2) **IT Security approval**. Submit an IT Security ticket of type **SEC-WFA-99** at least **10 business days** before you travel. IT Security confirms that the destination is not on the restricted-country list and that your laptop meets encryption and VPN requirements.

Q: Are any countries excluded?

A: Yes. WFA is not permitted from countries under trade sanctions or on the IT Security restricted list, which is published on the intranet and reviewed quarterly. WFA is also not permitted in countries where Cymbal Corp has no legal entity if the stay would exceed 20 workdays, because of tax and immigration risk.

Q: Can I combine WFA with vacation?

A: Yes. You can take PTO before, during, or after a WFA period. PTO days are not counted as WFA workdays, but they must be requested separately in Workday and come out of your PTO balance.

Q: What happens if I exceed 20 WFA days?

A: Any extension beyond 20 workdays needs written approval from your VP and from Global Mobility, and may require a work permit. Unapproved extensions may result in disciplinary action.

Equipment and Stipends

Q: Is there a home office stipend?

A: Yes. Hybrid and remote employees receive a home office equipment stipend of **\$1,000 every 3 years** for items such as a desk, ergonomic chair, monitor, or headset. Submit receipts on Form EXP-405 under the category "Home Office Equipment." Unused amounts do not carry over to the next 3-year cycle.

Q: Is my internet reimbursed?

A: Employees who work from home at least one day per week can claim up to \$50 per month for home internet.

Q: Who provides my laptop?

A: IT provides a company laptop. Company laptops must be used for all work, must stay connected to the corporate VPN when on public or foreign networks, and must not be left unattended in public places. Report lost or stolen devices to IT Security within 24 hours.
